

THYROID PANEL (COMPREHENSIVE)

About This Test

This panel evaluates thyroid function and includes TSH (Thyroid Stimulating Hormone), T4 (Thyroxine), T3 (Triiodothyronine), free T3, free T4, reverse T3, thyroid peroxidase antibodies, and T3 uptake.

This test can be ordered to evaluate thyroid health, diagnose thyroid disorders, or monitor treatment for thyroid conditions.

Note: Due to the intricate nature of the analysis involved, results for this test may require additional time for processing. Results will be available in approximately 3 – 5 days.

What Should I Do With My Results?

It is always recommended that you meet with a doctor to determine what your laboratory test results mean to you. Your doctor will review all of your test results and, combined with your health history, will be able to provide an accurate picture of your health status.

Abnormal results may indicate thyroid dysfunction, potentially leading to symptoms like fatigue, weight changes, or mood swings.

How Do I Obtain My Results?

Results are available through our online patient portal, My Labs NowSM. Visit www.compunetlab.com to sign in or setup an account. Or text MYLABS to 66349. Follow The signup link in the text message you receive.

Please be sure your name exactly matches the name on your lab test order. Contact help@luminatehealth.com if you need assistance. CompuNet is unable to provide verbal results to patients.

I Do Not Have a Regular Doctor. Where Can I Find One?

If you do not have a doctor, we recommend the following resources to locate one:

Premier Health Find a Doctor

(937) 684-4155 or 1-855-PREMIER
www.premierhealth.com/findadoc

WebMD Care

www.doctor.webmd.com

CompuNet DIRECT is direct access, preventative testing intended for education purposes. A CompuNet DIRECT lab test result is not a medical diagnosis and is not intended as a form of medical advice. Only a physician can interpret lab test results and diagnose a medical condition or disease.

Because tests have not been ordered by a physician, third-party entities, including Medicare and Medicaid, will not reimburse for these tests.
