## COMPUNET REACTIVATES IN-HOUSE TESTING FOR KEY ASSAYS

Beginning January 6, 2025, CompuNet Clinical Laboratories is pleased to announce the reactivation of several tests in-house, which were previously sent out to Quest Diagnostics. This change enhances efficiency and reduces turnaround times, ensuring timely and accurate results for our patients and providers.

The reactivated tests include:

- Cyclosporin (CYCL)
- Everolimus (EVER)
- Sirolimus (SIRO)
- Tacrolimus (TAC)
- Naltrexone (NALTRX)

In addition, starting January 8, 2025, Calprotectin, Stool (CALPRS) will also be available for in-house testing. For more information about these changes, please contact CompuNet Client Services at:

- Phone: (937) 297-8260 or (800) 686-2252
- Email: [CCLClientServices@compunetlab.com](mailto:CCLClientServices@compunetlab.com)

## NEWSLETTER UPDATE: TAKING A SHORT BREAK

CompuNet Connect will be taking a quick breather in February and March, but don't worry - we'll be back soon! We'll return with all the latest updates, announcements, and highlights to keep you informed and connected. Thanks for your patience while we hit the pause button for just a bit. See you soon!
